

The heart  
of worship

# QUESTION 1

What did **YOU**  
bring as an  
offering?

*“Instead of thinking of yourself as a poor old sinner saved by grace; rather think of yourself as a magnificent creation of God who has made some bad choices or experienced some knocks in life and who, through the grace of Jesus Christ, can choose to appropriate His grace and receive forgiveness and cleansing. This wonderful choice actually rewires the brain back to its original state each time we acknowledge Him. This is where science and grace meet. You see - we are wired for love! And as we practice His Presence daily we step into our natural design, which is one of love and perfection.”*
